

FMCG POLYMERIC PRODUCTS

Production based on your Requested Technical Specifications

T-SHIRT BAGS

Our T-shirt bags are a versatile and economical packaging solution, designed for convenience in retail and grocery settings. Made from high-quality polyethylene, these bags offer excellent durability and strength to carry a wide range of items. Their lightweight construction and easy-to-carry handles make them a preferred choice for customers. Available in various sizes and colors, our T-shirt bags are also fully customizable, allowing businesses to add their branding for greater visibility.

STRETCH & SHRINK FILMS

Our stretch and shrink films provide reliable packaging solutions for product protection and stability. Stretch films offer excellent elasticity for pallet wrapping, while shrink films provide tight, secure coverage. Made with premium materials, these films ensure durability and puncture resistance. Available in various thicknesses, they are ideal for both industrial and retail applications.

GARBAGE BAGS

Our garbage bags are designed for strength and durability, providing a reliable waste disposal solution for households and businesses. Made from high-quality polyethylene, they resist tearing and punctures, even with heavy or sharp waste. Available in various sizes and thicknesses, our garbage bags cater to different needs, from light trash to heavy-duty waste. They are also designed with strong, easy-to-tie tops for added convenience.
