Annex:

TDS of HDPE - 100% Recycled - Suitable for Pipe Production

Product Description:

HDPE - 100% Recycled - suitable for pipe production is a high molecular weight, high density polyethylene (HDPE) with high melt viscosity for extrusion and for usage in the transportation of drinking water, sewage, chemicals, irrigation and water, gas supply.

Applications:

transportation of drinking water, sewage, chemicals, irrigation and water supply, gas supply.

PROPERTY	METHOD	UNIT	VALUE
MFI (2.16kg)	ASTM D1238	g/10min	0.73
DENSITY	ASTM D1505	g/cc	0.88
TENSILE STRESS @ YIELD	ASTM D638	MPa	19
ASH	ASTM D5630	%	1.47
